

New 90 Degree ‘Stiffer’ Double Adjustable Bridge Bracket Technical Specification

110mm Pipe 90 Degree Adjustable Support Bridge

Kit supplied M8 Stud provides a drop range from circa 25mm to 450mm pending orientation of the brackets.

NB M8 stud length can be extended by replacement up to 1M or reducing by cutting with a suitable tool

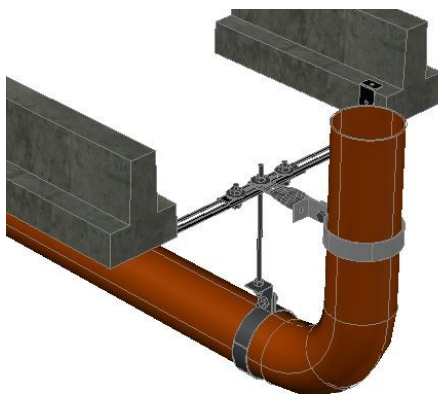

Pipe brackets should be spaced at 900-1000mm spacing allowing for a constant gradient as recommended by NHBC Technical Services

Adjustable Bridge Pipe Bracket Kit List

- 2 x Adjustable Brackets
- 4 x M8x30mm Bolt
- 6 x M8 Washers
- 1 x 333mm M8 Stud Length
- 10 x M8 Nuts
- 1 x Part D Twist Plate
- 2 x 110mm Dia Pipe Bracket
- NB Components Supplied None Assembled

All components are manufactured from Pre-galvanised Mild Steel BS EN 10346:2009 DX51D or Mild Steel Zinc Plated BS EN ISO898 / ISO4042

Should your application require higher corrosive protection this product can be supplied in Stainless Steel

The new adjustable bracket features a stronger press formed design increasing rigidity, stability and load bearing by 30% compared to the standard design. This increased performance negates the need for additional stiffener plates, added cost and complexity.

Additional holes at each end of the bracket aid retention and security into mortar beds where used or for fixing into timber structures increasing the versatility.
